

# YOGESH BHANDE

## SOFTWARE DEVELOPER

### CONTACT

7745876107

yogeshbhande14@gmail.com

www.linkedin.com/in/yogesh-bhande-830042225

### SKILLS

#### Tools :

Microsoft Visual Studio 2022  
Visual Studio code  
SQL Server Management Studio  
GitHub  
PgAdmin  
Jira

#### Language Skills :

ASP.NET Core, C#  
Angular 12+  
MS SQL Server  
Store Procedure  
Entity Framework  
.NET Core  
LINQ  
Typescript  
Javascript  
RDBMS  
OOPs  
Microservices  
Dapper

#### Communication :

Web Services  
Web API  
REST API

### EDUCATION

Bachelor of Engineering (B.E)

**D. Y. Patil college of Engineering, Pune**

2017-2020

### PROFILE

3.3 years of hands-on experience in .NET technology, C# Angular 12+, and database management.

Functional experience includes Web Application Creation, Development of user interface elements for applications, Designing, Developing and writing unit Test cases.

Having knowledge of .NET Core, C#, Angular, Typescript, Entity Framework, Dapper, HTML, PostgreSQL, MS SQL Server.

### WORK EXPERIENCE

#### Full stack web developer

Cloudstine Automation Private Limited

August 2023 - present

##### PROJECT 1 – TDS

**ENVIRONMENT** – DOT NET CORE, ANGULAR 16, C#, MS SQL Server.

- Analyzed user requirements to define business objectives and translated them into technical specifications.
- RESTful APIs:** Built and integrated REST APIs for seamless communication between the front-end and back-end services, ensuring robust and secure data transfer.
- Microservices Architecture:** Designed and developed scalable, independent microservices to ensure modularity, flexibility, and ease of deployment.

##### PROJECT 1 – POI-Proof of Investment

**ENVIRONMENT** – DOT NET CORE, ANGULAR, C#, MS SQL Server.

- The application in Angular 12, business layer in .NET Core and database in MS SQL Server.
- POI is a web based application useful for saving tax using various investment strategies.
- It helps your tax computation in simple and minimum time. It includes admin side to verify user
- financial investments in financial year declaration and submission.

#### Associate System Analyst

NSEIT Limited

September 2021 - July 2023

##### PROJECT 1 – NM CLAIMS APPLICATION, HDFC ERGO GENERAL INSURANCE

**ENVIRONMENT** – DOT NET, ANGULAR, C#, POSTGRESQL

- NM Claims Application is developed to handle end to end claim processing from claim intimation till payment approved and paid to the claimant. These captures the requirement of different stages of claims which includes claim intimation till payment disbursed to the claimant through manual entry by different users who have the permissions to perform these activities like claim intimation, claim distribution, payment etc.
- Contribute to all stages of the software development lifecycle in .NET, including requirements gathering, design, development, testing, and deployment.
- Design, implement, and maintain .NET-based applications that can handle high-volume and low-latency requirements.
- Writing well-structured, readable, and maintainable code using TypeScript, adhering to coding standards and best practices.
- Ensure application designs confirm to business goals, architectural principles, and best practices in the .NET ecosystem.
